

Log Writer (LGWR)

Soumis par OCA

19-03-2008

Dernière mise à jour : 15-04-2008

-

writes sequentially from the Redo Log Buffer to the Online Redo Log File when :

- a transaction commits
- the Redo Log Buffer is 1/3 full
- there is more than 1MB of change in the Redo Log Buffer
- every 3 seconds
- before DBWn writes
